If anything is good for Elba or Coffee County, The Clipper is for it.

Boost your town, boost your county, boost your nation—be the booster of everything worthwhile.

"Goods well bought are well sold," is an old adage. Goods well bought and well advertised are all sold.

The first cane juice of the season was on sale on the streets of Elba last Saturday, which reminds us that summer is about over and fall is near at hand.

It has been demonstrated again and again that the merchant who depends solely on his acquaintance and does not advertise his business, never gets very far.

Not a week passes but what some new store or business enterprise opens its doors in Elba. Slowly but surely the "bigger and better" Elba is becoming a reality.

Everybody knows—days seems to be in favor of a protective tariff, but each individual wants it on what he has to sell and not what he has to buy. However, there is no question but what the farmer comes out at the little end of the horn continually, so far as the tariff question is concerned.

As soon as the cotton crop rush is over, we hope there will be some in making this a tobacco growing section, will get busy and get such average acreage signed up to justify having a tobacco market in Elba.

A perusal of the names of the teachers who will make up the faculty of the Elba High and Grammar schools the coming year, will convince you that the educational interests of this city will be in competent hands.

The hot, dry weather of the past two weeks is affording the farmers of this section a wonderful opportunity to get their cotton out in record time. Much of the crop is turning out better than expected, and some authorities are predicting that Coffee County will gain about twice as much as last year.

The big difference between a cotton crop and a dairy crop is that whereas the cotton crop is marketed over with in two or three months, the dairy industry furnishes a steady flow of revenue throughout the year. The more the true of the poultry business. No fall seasons where the cow and the hen are concerned.

The great mail order houses have built up their tremendous business by consistent advertising. Without the pulling power of the printed word, these institutions would soon lose most of the patronage which has taken them years to build up. Merchants in Elba and everywhere should profit by the experience of these great concerns, to live and thrive on advertising.

Can our readers visualize what a transformation there would be in the commercial life of Elba if we had a good, live creamery, a large poultry feeding and shipping plant, a tobacco market, syrup cannery, etc.? Of course all of these industries will have to be supported by the necessary products, grown by our farmers, before they can become a reality. But they are worth trying for.

The climate and soil of this section of Alabama are wonderfully adapted to the culture of dairy products, poultry, tobacco, cane and many other farm products that would put hardships talk in to the discard if our bankers and farmers and everybody concerned would get back of a movement to push them to the limit. A town or community is just what its citizens make it, and it is our humble opinion that the possibilities of Elba and Coffee County have hardly been "scratched."

The cotton gins and warehouses in Elba, these days, resemble beehives. From early morning till late at night, and some times all night, the roads leading into this city from all directions are almost cluttered up with wagons loaded with the fleecy staple. While the crop in this section is turning out better than expected, reports continue to come from Texas that the crop there is suffering from drought, which is causing a rise in the cotton market. We are thankful for small favors.

Had an editorial meeting is so interesting that it causes Editor John Singleton to promise to take time out from his fishing, each year, in order to be present, it must be some meeting.

Advertising through the printed page is best, cheapest and surest way for business concerns to tell what they are, where they are and what they have for sale.

The Clipper is only \$1.50 per year—Subscribe now.

NOTICE

Notice is hereby given that a special election will be held in Antioch, District No. 1, Victoria, No. 37, Chestnut Grove, No. 29, Damascus, District Number 14, Coffee County, Alabama, on the 6th day of September, 1929, for the purpose of determining whether or not a special tax shall be levied and collected annually at the rate of thirty (30) cents on each one hundred (\$100.00) dollars worth of taxable property in Antioch District No. 1, Victoria, District No. 37, Chestnut Grove, No. 29, Damascus, District No. 14, in said County, and to be continued for a period of 15 years from September 20, 1929, the same to be for public school purposes within said districts. The boundaries of said districts are as follows:

According to Congressman Stearns, the farmer can count on very little relief from the so-called "farm relief" bill. The farmer will have to relieve himself by building up his stocks and herds and raising his own food for himself and family, instead of depending on a cotton or any other main crop.

The Mrs. Evangeliste Club movement is a wonderful power when busy business men will take time from their business and go out and labor for their Lord and Master and their fellow men, without pay, there is undoubtedly something substantial behind it, hard to comprehend by the average layman.

Experiment Shows Facts About Vetch

AUBURN, Ala., Aug. 27.—A good crop of vetch turned out will add as much nitrogen to an acre of land as 325 pounds nitrate of soda.

These are facts which have been established by experiments on plots of the Experiment Station at Alabama Polytechnic Institute. These same facts are being pointed out to Alabama farmers by J. C. Lowrey, extension agronomist at Auburn, county agents, and others who are conducting a campaign to get more farmers of the State to plant hairy vetch and Austrian winter peas this fall.

In quoting results of the experiment at Auburn, R. Y. Bailey, assistant agronomist of the experiment station, said: "One plot of cotton which received 600 pounds of superphosphate, 325 pounds of nitrate of soda, and 100 pounds of muriate of potash, under the cotton in the spring produced an average of 1,285 pounds seed cotton per acre over a four-year period. On a plot next to this vetch was planted in the fall, and fertilized with 400 pounds of superphosphate and 100 pounds of muriate of potash. This cotton was planted in the spring 200 pounds superphosphate was applied. This plot, the one which received vetch instead of nitrate of soda, produced an average of 238.2 pounds of seed cotton per acre over a four-year period. Two plots of cotton next to the above two which received no fertilizer averaged 325.2 and 405.5 pounds of seed cotton over the four-year period."

A similar test was conducted with corn. The vetch plot produced an average of \$1.8 bushels of corn per acre over the four-year period. Mr. Bailey pointed out that the low yield in the vetch plot was, no doubt, due to the fact that the vetch was winter-killed in 1928.

The Auburn agronomists believe that Alabama farmers could double the State yield of corn in one year by the proper use of winter legumes. They are recommending hairy vetch and Austrian winter peas.

Vetch seed and inoculation to plant an acre will cost about \$3.50; 325 pounds of nitrate of soda about \$8.50.

Did You Ever STOP TO THINK

That where people buy and what they buy depend upon the advertisements they read?

That a business concern that wishes to attract business must make itself known to those who have money to spend. No business exists in the minds of the public unless it is constantly telling them what they have for sale?

That quality, well advertised, is always in popular demand. This fact is proven because quality is selling in greater volume every year?

That persistent advertising maintains present business and assures future business?

That well advertised merchandise is better for use; therefore, better to sell or to buy?

That business concerns are judged to a great extent by the merchandise they offer for sale?

Lewis Memorial Sing Made Permanent Fixture

Continued from page 3.
Clifton Cook, Almer Wilson, J. L. Bryant and W. M. Faust, the lessor was chosen by the chairman.
Recess ten minutes.

The committee reported a result by five of three songs each; S. A. Bowers, J. J. Moore, D. A. Wilks, T. J. Bryant and Basson Faust. On motion of D. A. Wilks, H. A. King was elected permanent chairman of the Bluff Springs memorial singing so long as he is able to perform the duties.

A motion was unanimously adopted that the singing be continued on the second Sunday in August in each year.

After adopting a resolution thanking the people of the community and especially the ladies thereof for their kindness and beautiful dinner, the chairman closed the day by singing No. 36, "We Shall Meet Again." Dismissed by W. W. Beck.

B. J. Lewis,
Columbus, S. C.

MALE HELP WANTED

Reliable man wanted to run Men's business in Coffee County. \$8 to \$12 daily profits. No capital or experience required. Wonderful opportunity. Write today. Men's Co., Dept. C, Freeport, Ill.

Mrs. Georgia Larkin and son, Houghton Ben, visited relatives in Arlington, Ga., last week.

PRINCESS THEATRE TROY, ALABAMA

SUNDAY AND MONDAY, SEPT. 1-2—

THE "COW PEN"

Continued from page 1.

properly care for our pastures. Every hand-trail should be cut out and kept clear of weeds and bushes. All weeds and bushes should be cut out every summer. Do not permit bushes to grow in your pasture.

A few goats will help to keep down the bushes, and will also help to keep down of your cows and hogs. Bitter weeds are probably the worst enemy of our pastures, but they can be easily controlled if we will watch and get the first one before it goes to seed. If you will start in time it is mighty easy to keep them down.

When we set aside a few acres of land and expect that piece of land to carry thirty or more head of cattle and to help feed our family with milk and butter, then we should expect to give that pasture some of our time. I don't mean time in felling the fence, I mean that we should give time to work within the pasture. This work will pay you well, but if neglected, your pasture will be worthless. And the thing of most importance to be remembered is, that the branches and hot-temper places are the valuable places for grazing and those spots should have your first attention.

As to the size pasture needed of course that depends on the amount of cattle you desire to keep. One acre of good bottom land, completely sodded in carpet grass will carry one grown cow or two yearlings. Of course some land will do better than this, but I think all of us could count on it doing that well. One acre of good carpet grass will carry about as many cows as ten acres in the woods. Do not have too much land in your pasture. A small pasture well sodded and well cared for is much better than a large pasture.

We do not recommend Bermuda grass for cows if you can have the carpet grass.

A good carpet grass pasture will last indefinitely. It is not necessary to plow it up at any time. Simply destroy the weeds and bushes and it will do the rest if you keep it closely grazed. The closer you graze your carpet grass the better it is for your cows. If you find that your cows do not keep it closely grazed, then either get more cows or reduce the size of your pasture if you want the best results. If you ever get a piece of land sodded in carpet grass do not destroy it, as it will make you more money without your labor than you can make on the same land with your labor added.

We are not going to enter into a discussion of the fall pasture question in this issue, but will do so at some later time.

We do not claim to know anything about sowing various kinds of seeds for a pasture. If you are interested in that question we suggest that you see the county farm demonstration agent, and he will gladly give you some expert advice on that subject.

Now listen out for the smart guy who will tell you that we cannot grow cows here on grass, that we do not have lime in our lands, and things of that kind. I want to tell you that one acre of good damp land well sodded in carpet grass will do as much right here in Coffee County, Alabama, towards raising a cow and towards filling a milk pail as an acre will in any other county in the state or in any other state in the Union. It simply cannot be beat, and any man will tell you so if he has tried it out. The man who tells you that it will not do is the man who has not tried it out. Right here in Elba is a plot of carpet grass containing less than five acres, and 7 head of cows are not keeping it grazed down as closely as it should be for the best results. Somebody tell me what that piece of land is worth?

By the way, we delivered four more calves last Saturday, when we thought ourselves that it would not happen. Now that is fine, and it is going to be even better a little later. The big deliveries will be after the first of October.

If nothing prevents, we are going to give a small demonstration on the Court Square next Saturday afternoon at 3 o'clock. We are going to bring out an old cow with three calves and show you just how it is done. We will also show you how to use commercial calf feed to help the cow out. At this time we will be glad to answer all questions possible and explain fully about training the calves to drink commercial milk.

LOST DOG—Black and tan hound, with white breast; 15 months old, been gone from Elba two weeks. Liberal reward for return to Gordon Cain, Elba, Alabama.

Mr. and Mrs. Steve Howe visit of Mr. and Mrs. Jim Wilson in Samson Sunday.

Mrs. J. W. Kendrick and son, John, and daughter, Mary Will, left last Thursday for a visit in Maplesville, Birmingham, and Fayette.

Services At Methodist Church Following Week

Continued from page 1.

Sunday School at 9:45 o'clock Sunday a.m.
Dr. J. M. Dannelly, presiding elder of Troy District, will preach Sunday at 11 a.m. and 8 p.m. He will hold Quarterly Conference at 4 p.m. at the church.

The Epworth Junior and the Hi League will meet at 7 p.m. Monday, at 4 p.m., the Women's Missionary Society will meet at the church. This program will be our Bible Study with Mrs. Casper Foley as leader.

The Young People's Missionary Society will meet Tuesday p.m., at 6 o'clock, at the church.

We appreciate, very much, the beautiful cooperation of everyone in making all these services a success, and we are grateful for your spiritual help during the absence of our pastor. We are asking you to help make next Sunday the best yet, at all the services.

We want to thank, especially, the directors of the choir for the beautiful, helpful music you are rendering each Sunday. There is a wonderful message in song.

Everybody is cordially invited to attend all these services. You will always find a welcome here.

Mrs. E. B. Paul.

Singing And Barbecue At Old Tabernacle Sept. 8.

There will be a Sacred Harp singing and barbecue at Old Tabernacle on Saturday, Sept. 8th. The barbecue will be sold at 25c to children under 12 years, and 50c to all others, the proceeds to go to the parsonage at New Brocton.

All Sacred Harp lovers, come and bring your books.

D. L. Polson, Pastor.

Mr. and Mrs. L. P. Mullins and children visited relatives in Daleville, Thursday.

Mr. and Mrs. Fred Mays, of Mobile, arrived Tuesday night for a visit to Mrs. Mays' parents, Mr. and Mrs. E. L. Harper. Mr. Mays will return Friday night, but Mrs. Mays will remain for an extended visit.

Miss Edith Markley, field representative for the Purina Mills, was the Sunday visitor of Mr. and Mrs. Jas. C. Dixon.

Mrs. Corrie Bryant has returned from Birmingham where she spent several days with her brother, Mr. Milton Tye.

Miss Anne Stewart has returned to her home in Jacksonville, Fla., after a visit to her aunt, Mrs. Willie Michel.

Miss Evelyn Bryan visited in Hartford Tuesday night and Wednesday, the guest of Miss Lois Williams.

Mrs. Joe Benton and children, of Opp, spent Saturday in Elba, the guests of M. N. Morrow and family.

Mrs. Ruby Taylor and daughter, Louise, of Tallahassee, Fla., are visiting Mrs. Taylor's sister, Mrs. L. C. Messick.

Mr. and Mrs. Oswald Dowling and little daughter, Martha Frances, spent Sunday in Samson, the guests of Mr. and Mrs. Lewis Dowling.

Mrs. Tom Hutchison and children, Mary Tom and James McCull, spent a few days last week in Ozark, the guests of Mrs. W. L. Hutchison.

All highways leading into and out of Elba are now said to be in better condition than at any time since the floods of last March.

Mr. and Mrs. Cecil Polson, of Mobile, are guests of Mrs. J. M. Polson in Elba for a few days. They formerly resided in Jacksonville, Fla., but will make Mobile their home in the future.

Rudolph Terry, of Dallas, Texas; Mrs. Prentiss Savage and Miss Katrina Brewer, of Elton, Texas; Misses Frances, Juanita and Evelyn Lee, of Enterprise; Miss Elizabeth Richardson, of Marianna, Fla., and Mr. and Mrs. John Terry, of Enterprise, were guests of Dr. and Mrs. W. R. Crook last Wednesday.

A Hair Curling thriller vibrant with the pulse of the underworld, as-sparkle with the glamor of the New York Night Clubs.

Also All Talking Comedy and News

Admission, 15c and 35c.

County Agent Stresses Planting Winter Legumes

Continued from page 1.

In order to put this very important matter before the entire population of Coffee County, seventeen group meetings are being held over the county at the various school houses this week to discuss a soil building program for the entire county. It is said that the man will take care of his land the land will take care of the man. That is exactly the purpose of sowing winter legumes. The soil can be made rich by sowing legumes and never miss a crop on the land. Almost half the money spent for fertilizer each year is spent for nitrogen, that can be grown on your land. Still this bought nitrogen does not improve the land but is entirely gone at the end of the year. It has been proven that vetch or peas grown on land will provide as much nitrogen as is contained in 350 pounds of soda. To sow an acre of winter peas will cost about \$3.25 and will leave the soil improved for a second crop. 325 pounds of soda will cost about \$8.50 and will not improve the soil for another crop.

These seed should be planted by October 1st. Orders for seed must be in by September 10th. Instructions are that the farmers of Coffee County are going to go about this problem in a big and businesslike way this fall and sow enough peas to amount to something. Coffee County farmers have been sowing less acreage to covering crops than any county that joins it. I hope this won't be true this time as this is the best way known to improve the soil.

W. M. Ray, County Agent.

Smith Attending I. G. A. Convention In New Orleans

J. D. Smith left Sunday afternoon for New Orleans to attend a convention of the Independent Grocers' Alliance, in session there Monday, Tuesday and Wednesday of this week. This is one of the strongest chain store organizations in the country and a large attendance was expected. President Grimes, of Chicago, presided and the members were looking forward to some interesting instruction from him.

A leading feature of the week's program was to be a play. One of the city's theatres was rented for the occasion and a play was to be put on showing the wide difference between the old store of years ago and several days with the modern methods employed by the I. G. A. stores of today.

Jitney Jungle Store
Moves To Page Block

The Jitney-Jungle Store which has been occupying a store on the west side of court square for the past three or four months, has this week moved back to the Page building and is now located in the corner store of the Page block, where it was located prior to March this year.

Mr. E. L. Harper, manager of the store, states that he is purchasing new goods and his stock will be complete in every respect. He will have an announcement of unusual interest in next week's paper. Watch for this ad.

A15-22-29-35. Rainer & Co.

NOTICE TO CREDITORS OF FIRST MEETING

In the District Court of the United States Court for the Middle District of Alabama, Southern Division, In Bankruptcy.

In the matter of O. O. Cooper, Bankrupt, Route 2, Elba, Coffee County, Alabama.

The aforesaid party having been adjudged a bankrupt, under the Act of Congress entitled "An Act to Establish a Uniform System of Bankruptcy Throughout the United States," approved July 1st, 1898, a meeting of creditors of said bankrupt is called at the office of the undersigned Referee in the United States Courthouse, Dothan, Alabama, on the 12th day of September 1929, next, at 10 o'clock a.m. to make proof of debts and for the election of a trustee, and such other matters as are necessary and required by the Acts of Congress aforesaid.

Dothan, Ala., August 23rd, 1929. J. J. SPEIGHT, Referee.

Miss Lillian Rowe is at home from the Troy State Normal where she graduated this summer.

FARM WANTED

Want to hear from owner having good Alabama farm for sale, price right. Send description, E. E. P., Box 408, Olney, Ill.

Lynwood Harper, who is in the navy and stationed at New Port, R. I., came home Sunday for an extended visit to his parents, Mr. and Mrs. E. L. Harper.

Mr. and Mrs. Howard McClellan and two little daughters, Marjorie and Leona, and Mr. Herman Wilson, all of Monticello, arrived in Elba Monday on a visit to Mrs. McClellan's parents, Mr. and Mrs. C. B. McHowell.

Miss Frances McHowell, who has been visiting the McClellan's in Monticello, came with them and will live here.

Mr. and Mrs. J. D. Kendrick and family, of Noma, Fla., Mr. and Mrs. W. H. Bryan and family, of St. Louis, Mo., Dr. and Mrs. O. C. Bryan and family, of Gainesville, Fla., Mrs. Esther Johnson and family, of Troy, R. I., and Mr. and Mrs. Byron Bryan, of Opp, were the guests of Mr. and Mrs. Baxter Bryan and Mr. and Mrs. Sam Young the first of the week.

The many friends of Mrs. A. A. Carney will be glad to learn that she is rapidly recovering from a very serious illness at a Montgomery hospital. Her condition last week was very critical and a blood transfusion was deemed necessary. Mr. Terry Kendrick underwent the test and gave his blood for the transfusion. It is hoped that Mrs. Carney will soon recover.

The Clipper is only \$1.50 per year—Subscribe now.

JITNEY- JUNGLE

THE NEW FORD TUDOR SEDAN

You'll like the easy-riding
comfort of the new Ford

The new Ford is one of the easiest-riding cars on the road because of its low center of gravity, minimum unsprung weight, four Houdaille hydraulic two-way shock absorbers and the unique construction of its transverse springs.

Furthermore, you are as comfortable in mind as in body when you drive the new Ford. You have confidence in the performance of the car because you know something of the quality that has been built into it.

Roadster, \$450. Phaeton, \$460. Tudor Sedan, \$525. Business Coupe, \$525. Coupe, \$550. Sport Coupe, with rumble seat, \$575. Fordor Sedan, \$550. (All prices) f.o.b. Elba, plus charge for freight and delivery. Bumpers and spare tire extra.)
